MINUTES

INTELLIGENCE DEFINITIONS WORKING GROUP

21 FEBRUARY 1978

1. With the agreement of the DoE member and NIO/Nuclear Proliferation, the word Nuclear was inserted before Proliferation Intelligence and an adjustment was made in the glossary. An addition was made to Compromise which enables cross-referencing with Unauthorized Disclosure. The NSA member, noting that Disclosure was on the day's agenda, agreed to check whether "authorized" is implicit in its meaning.

2. The Army member reported that DA was trying to eliminate use of the phrase Denied Area, and the Group agreed to drop it. The DIA member agreed to report back with a newly modified definition of Information taken from JCS Pub 1. Foreign Counterintelligence was deferred pending the presence of the FBI member, and the ACOUSTINT/ACINT problem was postponed pending a candidate definition from Navy.

3. The Group agreed on definitions for COINS, SOTA, and SAFE, finished Part II of the NSA lists by adopting Teleprocessing, Telecommunications, Traffic Analysis, Signal, Upgrade, and Disclosure, and revised Computer Security. It was generally felt that some use should be made of the historical footnote to SIGINT which NSA provided. NSA Part III was distributed and is attached for those who were absent.

4. Several minutes were devoted to a discussion of the proposed Preface to the glossary. The Group agreed that it should contain statements of its authority, proposed use, and readership; and that it should, as much as possible, be instructive.

5. The next meeting of the Working Group will begin at 1330, 28 February 1978, CHB Room 5S09, with Part III of the NSA lists.

Acting Chairman
